The Guardians Foundation: Putting Veterans to Work

Besides teaching safety, Dave's other passion lies with service to veterans programs including The Guardians Foundation. [The Guardians Foundation](#) is a national non-profit organization that will soon be based in Salt Lake City thanks to a team of local partners including The Safety Consortium. In addition to providing shelter and immediate needs for homeless veterans, The Guardians Foundation has been "extremely successful in placing and guiding individuals to employment and apprenticeships that best match individual skill sets." We look forward to this partnership and the journey in the years to come! If your company is interested in sponsoring a "Day of Service" or learning more about veterans programs, please contact Cam W. at camw@theguardiansfoundation.org.

An effective occupational hearing conservation program (HCP) helps preserve and protect the hearing of employees who work in jobs that expose them to hazardous noise such as manufacturing, agriculture, mining, military, transportation, construction etc. Effective HCPs also give employees the knowledge they need to protect themselves from other non-occupational noise exposure. At the Safety Consortium, we provide CAOHC accredited hearing tests. We also partner with [SportEar](#) to provide high quality hearing protection at great prices. For more information about hearing programs, ear gear and prices, please contact Dave at 801-746-2462.

Upcoming Training:

- | | |
|----------------------|---------------------------------------|
| November 2, 2020 | MSHA 8-hour annual refresher training |

Facility Rental

The Safety Consortium facility is available when classes are not in session! We have a conference room, two large training rooms, a large parking area and rest rooms. Inside there is hardware, software, tables, projectors, and anything else you need for presentations or your company's holiday party. We also sanitize the facility with Biosecurity Clean. For more information and pricing, please contact Dave at 801-746-2462.

Meet the Help!

The Safety Consortium has a new office manager. Jeanette has a Master's Degree in anthropology, which comes in handy when interpreting communications from her favorite new boss. Jeanette can be reached at 801-746-2462 or by email at thesafetyconsortium@outlook.com.
